

THE MACH1 IS A NEW WALK-BEHIND SWEEPER IDEAL FOR THE FAST, EFFICIENT SWEEPING OF SMALL AND MEDIUM SIZE AREAS.

It is available either driven by a petrol engine (Honda) or battery powered. The electric version, which is extremely quiet and pollution free, is particularly suitable for indoor applications.

The MACH1 has a main brush of 22 in, a total sweeping path of 31 in, and boasts a working capacity close to 37,674 ft²/h.

The MACH1's main brush, made-up with mixed PPL, allows for thorough cleaning of even the dustiest and most uneven floors. Coupled with a capacious rear dust collector and an ultra efficient polyester bag filter the MACH1 delivers clean floors, effectively dust free (99,9%) with maximum filter life and minimal maintenance.

The MACH1: packed with features with productivity to match.

The only thing you won't believe is how much machine you get for so little money.

VALUE ADDED FEATURES

- MAIN BRUSH IN PPL, MIXED BRISTLES
- SIDE BRUSH, PPL
- TRACTION LEVER
- CHASSIS PROTECTED BY AUTOMOTIVE TYPE, ANTI-SHOCK BUMPERS
- HINGED HOOD IN SHOCK-ABSORBING MATERIAL
- FLAP RAISING DEVICE
- DIRT CONTAINER MOUNTED ON WHEELS
- ADJUSTABLE HANDLE
- PARKING BRAKE
- FILTER-SHAKING SYSTEM

The dashboard, located on the hood, is very simple to use and includes: vacuum cut-off device, side brush raising/lowering device, key switch.

The adjustable handle allows for improved working comfort and greater maneuverability, as it can be adapted to the height of the operator.

Traction can be activated by means of a comfortable lever positioned on the operator's handle.

Fine dust is filtered through a polyester bag filter, which allows for an excellent filtering rate (99,9%) and has a much longer lasting life than traditional filters. The filter can be cleaned thanks to an efficient mechanical shaker.

The main and side brush can be quickly replaced.

The large capacity rear container means minimum time loss for emptying. It is mounted on wheels, and it's equipped with a comfortable handle to allow for easier emptying.

The machine is equipped with a front flap lift device to allow for easier pick up of bulky debris.

The body of the machine is made-up with a special anti-shock material to protect the MACH1 from unwanted damage.

MACH 1

VALUE ADDED OPTIONS

- Class M filter
- Reduction refuse boxes
- Carpet cleaning kit
- Hour meter

AVAILABLE VERSIONS

MACH1 SH – with gas engine, Honda
MACH1 ET – battery driven

FIELDS OF APPLICATION

Industrial sites, communities and vicinities, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping malls, logistical depots, cleaning companies, and multi services.

SUITABLE CLEANING SURFACES

Ceramics, marble, cement/concrete, linoleum, non-slip surfaces, porcelain tiling, and many other dirty conditions.
